DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record that is not seen to change the scope of the claims
appears below. Should the changes and/or additions be unacceptable to applicant, an
amendment may be filed as provided by 37 CFR 1.312.

To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

****** In reference to Claim(s) 16, line 1, delete the recitation "claim 16" and insert – claim 15--.

Reasons for Allowance

· The following is an examiner's statement of reasons for allowance:

The prior art does not show the following structure:

In reference to Claim(s) 1, at least three magnetic coils, a sliding sleeve enclosing an interior space in which the permanent magnet is disposed and the sliding sleeve and the outer sleeve co-operate as a sliding bearing.

In reference to Claim(s) 12, a sliding sleeve, soft magnetic outer tube, soft magnetic armature pole pieces and the permanent magnet generates self-holding forces that lead to the location of the armature being fixed and to the position of the optical elements being stabilized by restoring forces.

The above noted structure in combination with all the other elements of the claim is not shown in a publication and the examiner knows of no permissible motivation to combine the Art Unit: 2833

prior art such that the subject matter as a whole would have been obvious at the time the invention was made.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
